

## WearShine Lace

**W**earShine Lace Co., Ltd., with 32 years of professional embroidery design and production experience, is like a historical chapter in the textile history of Tainan, Taiwan!

From the traditional Japanese paper card-controlled embroidery machines to Industry 4.0, the company has upgraded to Swiss-made fully automated computer-controlled embroidery machines, showcasing the epitome of embroidery aesthetics.

In recent years, at professional exhibitions featuring PV fabrics show in France, we have also introduced various sustainable Lyocell products in response to the trend of environmental protection, producing biodegradable embroidery products in order to be prepared for cleaner textile industry.
