

YKK TAIWAN CO., LTD.

YKK TAIWAN CO., LTD. (Taiwan YKK) is a subsidiary company of YKK Corporation and mainly produces fastening products. YKK is constantly pursuing the creation of a sustainable society through our business. At the core of all our corporate activities is the philosophy of "Cycle of Goodness". YKK Sustainability Vision 2050 is formulated and targeting to switch to 100% sustainable textile materials and increase the waste recycling rate to 90% by 2030. Eventually be carbon neutral by 2050. YKK TAIWAN CO., LTD. continues to increase the usage of recycled materials in accordance with the goals of the Group Declaration. We are ranked No. 1 in YKK Group with the conversion to recycled materials and product development with recycled materials.

To have better interactions with customers and to increase product visibility, YKK has set up new Digital Showroom website. Customers can have better look and understand with our products through digital presentation. Trim Creator section with 3D CG simulation technology offers a variety of product combinations according to your needs which provides more modern services in sampling. In response to current trends, this exhibition mainly focuses on the two themes, "Function" and "Environmental Sustainability". In function category, TouchLink® slider with NFC chip provides possibilities of usage with smart phone APP, such as production history. It can help to communicate the various details and possibilities of a product to consumers. In environmental sustainability category, besides recycling, to extend service life and to have revived function on the sliders is also the main points in our exhibition.

YKK TAIWAN CO., LTD., fastening expert for almost 60 years, has survived through covid pandemic. Stay tuned for our new looks!
