

## HOPE UNION ENTERPRISE CO.,LTD Beyond basics

HOPE UNION ENTERPRISE CO., LTD. established in 1975, aimed at producing natural and comfortable products. Plus, we provide a customized service to show an elaborate hand-made style.

HOPE UNION ENTERPRISE CO., LTD has a knitting factory and a sewing factory. The knitting factory is equipped with hand knitting machines. Not only can we create elaborate patterns, but colorful products. The sewing factory also excels at quilting. The two factories can work together to combine knitting products and quilting ones.

Besides, knitting production is more than winter clothing. We create bags, bedding, storage, decorations, and stationary, combining the tenderness of knitting with our everyday lives.

In TITAS 2022, we will show the skills of hand-making, pattern-making, and the skills of embroidery, which machines can't replace.
