

KEEN CHING INDUSTRIAL CO., LTD. ALWAYS BEYOND

The product highlights:

1. **INVISIBLE OPEN END ZIPPER**----- For down jackets: vest extended with long sleeves, short jacket extended with hem

KCC patented innovative movable box invisible open end zipper--- offering conditional variation to apparel designs and bring double added value. Invisible open end zipper can be used on down jacket which can be used to extend a vest with long sleeves to be a shorten jacket, and short jacket with the hem becoming a long coat design. That is made into one coat with three multi-wears, no traces on the fabric joints.

2. **Plastic Zipper Teeth with Logo**

Teeth with logo: Plastic-based teeth elements furnishable with Roman alphabets for customizable logos. Logos can be larger than individual teeth elements to better highlight the design & unique.

3. **Elastic Zipper**

Elastic Zipper with Horizontal or Vertical elastic tape, Perfect for footwear or clothing that requires elasticity or curve function.
