

Yi Shin Textile Industrial Co., Ltd.

Yi Shin Textile Industrial Co., Ltd. is a leading functional yarn (DTY/ACY) manufacturer in Taiwan. Our products fit for all kinds of textiles in the use of apparel (sportswear, underwear, blouses, dresses, jackets, suits, jeans, etc.), shoes, bags, furnishing, medical fabric, automotive upholstery, etc.

We market our products under the name of our trademark "Magic Yarn". The product series includes Magic Recycle-WTG (waste to goods). It is composed of GRS certified recycled yarn made from pre-consumer textile waste and post-consumer plastic bottles, which makes it an alternative to achieving the goal of sustainability. Magic Bio, the bio-based material, consists of 30% agricultural waste extracted MEG, Magic BES for biodegradable enhancement, Graphene for premium thermal transfer rate, Magic CAC (Cellulose Acetate Comfort) for great hand feel, cooling performance and sustainability, Magic Stretch for advanced elasticity, 37.5 specialty yarns for moisture management.

As sustainability is the goal for us, we also set up an eco-friendly production process which is called LEMTT in order to reach carbon neutral in the end. It is to go higher automation to save the labor force (L), to reduce electricity consumption to save energy (E), to decrease the use of cartons (M=material), to lower paper usage, to lessen the times of transportation (T) to decrease oil consumption, to adjust working hours properly (T=time) to achieve a better work-life balance.
