

Double Bond Chemical Ind. Co., Ltd.

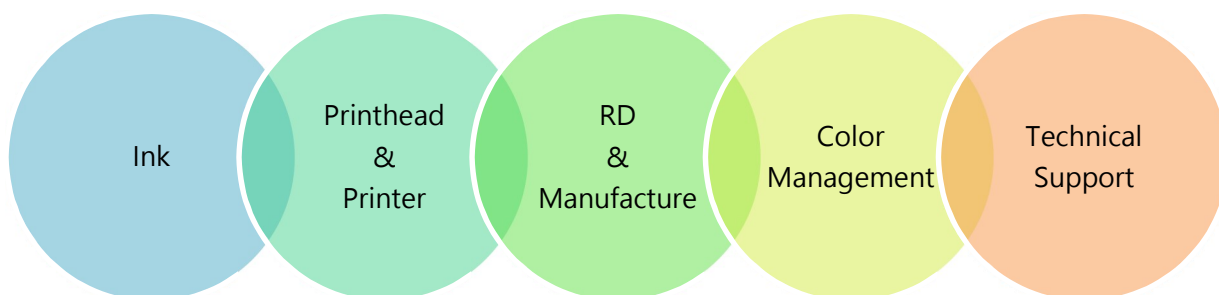

Total Solution to Inkjet Printing

Double Bond Chemical, founded in 1994, is a global leading manufacturer of specialty chemicals. Utilizing the technology of polymer additives, UV curable materials and inkjet printing inks, DBC is establishing a global inkjet printing center for a total solution featuring eco-friendly properties and diverse applications. Applicable materials include textile fabrics, wallpaper, plastic films, computer keyboards, glass, wood, latex gloves, natural and synthetic leather. Our goal is to make good use of green technology and to achieve enterprise sustainability.

Highlight of 2023 TITAS Show:

- Inkjet printing inks: water-based (acid/reactive/disperse) & UV inks
- Inkjet printing OEM: textiles, leather and various materials
- Concentrated dye and pigment dispersion: water-based and UV types
- Water-based light fastness enhancers and adhesives
- New product launch: dye carrier, UV ink resistant to alcohol and bleach, water-based finishing agent and flame retardant
