

J2 Textile Corp.

Unique designs with quick response, J2 Textile is your best sourcing partner.

The main theme this year is about the pursuit of a healthy lifestyle. Light airy fine gauge knits with super nice touch, yet excellent in stretch and recovery. Smart cooling technology which is embedded in the yarns for permanent cooling sensation and UV protection benefits. Soft and puffy quilted knits to provide comfort and thermal regulation. Our double knitted textured fabrics not just bring versatility to garment designs, but are also developed with a functional purpose and match the economic and ecological concept everyone nowadays cares about the most.

All our fabrics are made in Taiwan with so much love and passion, and we hope you enjoy them as much as we do.
