

BOOTH # L1129

寶今實業有限公司 永續環保再進化

寶今實業成立於 1994 年，具有近 30 年以上豐富經驗的我們，專注於功能性機織物。布料從尼龍、聚酯纖維、自然纖維、混紡皆有生產，製成品包括滑雪衣物、戶外、城市和時尚服裝及毛毯。

近年來不斷研發具有環保概念的機能型布料，以順應世界環保趨勢，減少對地球環境的污染。今年著重研發於可回收環保布料，利用廢衣回收後製造的布料搭配 BIO DWR，減少水汙染，做出輕量的環保貼合布料，可以回收再製造達到循環經濟。

寶今實業總是關注於如何減碳，不斷研發永續環保布料，將碳對地球的影響降到最低限度，唯有這樣，我們才能與地球和平共存。

Sustainable Concept

Circular Economy - recycled fabric from used garments

The diagram illustrates a circular economy process for recycled fabric from used garments. It starts with **Retail/Consumers** (represented by a store and people), leading to **Collect** (a truck), **Cutting** (a pile of fabric), and **Depolymerization & Refining** (a factory). The process then moves to **Chips** (small particles), **Yarn** (a spool), **Fabric** (a roll of fabric), and finally **Garments** (a pile of clothes). The cycle is completed by returning to **Retail/Consumers**.

DURABLE WATER REPELLENT TECHNOLOGY

- PFAS-free
- Readily biodegradable
- Free from isocyanates and formaldehyde
- Inspired by nature

Additional icons include BIO, a water drop with a leaf, a globe, a leaf, a recycling symbol, and CO2 with a leaf.
